Instructions on File

Mr. [REDACTED]

Oct 1 - 1964

Mr. Eng (formerly Lt-Comdr) has informed me that the reply to our inquiry of 10 Sept is only now being prepared. He stated that this reply is to the effect that the two trials of the sampling techniques which had been recommended were never carried out.

This returns us to the problem of what to do in the matter. Do you think that steps should now be taken by CIG to study the techniques along the lines proposed in the draft of the former Central Plans CIG directive in the attached folder?

Think we should wait Navy reply & find out why they didn't try it out and if & when they can.
